

For Comfort This Winter Get a Splendid Stewart Base Burner

There is no question but what the hard coal Base Burner is the ideal heating stove. No other stove gives an equal percentage of heat from the fuel consumed. Nor is any other stove as cleanly or gives such an even temperature and with so little care. A good Base Burner has double the efficiency of the best hot air furnace. There is, however, a vast difference in Base Burners and this difference affects the coal bin, which means the pocketbook.

The Difference in Stoves lies in what is done with the heat so generated. How much is radiated into the room and how much escapes up the chimney?

The Splendid Stewart Base Burner

The splendid Stewart establishes a higher grade in Base Burners than has existed heretofore. The construction and finish are not limited by the question of cost, but is such as to make every stove mechanically perfect. The Splendid Stewart is not only the equal of other high-grade Base Burners, but is superior to any and all. The stove should be seen to be appreciated.

The new offensive, which has been going on for four days from Gorizia to the Adriatic, is still in its first stages, with the Austrians entrenching and blocking the way to Trieste along the line of Hermada-Selo-Novale.

ZAIMIS IS SUMMONED TO SUMMER HOME OF KING

POLITICAL SITUATION IS VERY MUCH INVOLVED

Athens, Sept. 14—(Via London, Sept. 15, 9:35 p. m.)—The inability of former Finance Minister Dimitriou to form a cabinet, as requested by the king, is believed by the Venizelots and anti-Venizelots alike to have been due to the belief that he intended to build up a personal political party. His assurances that he would do his best to bring Greece into the war did not seem to justify the price demanded by the entente, who asked a free hand in Greek internal politics and immediate elections, notwithstanding the evident difficulties in the way of such a course.

The political situation is still very much involved.

PAPERS INDIGNANT OVER GERMAN COUP AT KAVALA

London, Sept. 16—(6:30 a. m.)—The morning newspapers are indignant over the German coup at Kavala, whereby the fourth Greek army corps surrendered.

The Telegraph says:

"This is an outrage of a character quite unique, even in Germany's record, and verily is unprecedented in history. An entire Greek army corps has been literally kidnapped by the Germans and Italians and packed off with its arms and equipment to Germans. The plot was organized in Berlin and carried out by the Bulgarians."

The story of this international crime advanced with mendacious excuse put forward to account for it, comes from the Wolff bureau and is a mixture of truth and falsehood.

"The Wolff bureau states that communication between the Greek army corps and Athens was fully ruptured by the entente—the truth is that it was cut by the Bulgarians. The Wolff bureau states that the Greek commander wishing to maintain neutrality appealed to the German commander for protection from the entente. The truth is, the fourth army corps surrendered only under the menace of the Bulgarians and Germans, and only after it was surrounded and at the mercy of the enemy."

Cold Weather in Dakar.

Little Kingdom, Already Torn to Pieces by War, Is Being Preyed Upon, According to Statement Issued.

THREATEN TO ARREST ALL BANK DIRECTORS

One Man Has Been Taken to Aix-la-Chapelle, Where He Wears Prison Garb; Treated With Greatest Brutality.

BY MORNING JOURNAL SPECIAL LEADED WIRE

Havre, Sept. 15.—The Belgian minister of finance, Alex van de Vyvere, has issued the following note:

"According to news from authorized sources, the German authorities of occupation are pursuing against the Belgians a policy of spoliation of even graver than that denounced by the Belgian minister of finance, after the first report in the Dutch press.

"The Belgian National bank is not the only bank which they desire to reach.

"The German commissary at Brussels demands that a loan be made to him not of 500,000 francs, as first announced, but of 1,000,000 francs, of which three-fifths is to be furnished by the Belgian National bank, and two-fifths by other banks.

"All the directors of the Belgian National bank are threatened with arrest. M. Carter, one of the directors, already has been arrested and taken to Aix-la-Chapelle, and is being treated with the greatest brutality. He has been forced to wear prison garb. Such are the barbarous methods of intimidation to which the German government has resorted in attempting to insure the success of its forced loan.

"The Belgian minister of finance denounces this ongoing abuse of power by the authorities of occupation. The act is all the more abominable in that it aims at extorting from Belgium already so maltreated, her own financial resources to use in making war upon her."

Budapest, Sept. 14 (via Berlin and London, Sept. 15, 8:30 p. m.)—The Hungarian parliament again today was the scene of great excitement when Count Albert Apponyi, Stephan Radvanyi and other opposition leaders attacked Premier Thesz, who defended himself by criticizing them.

Premier Thesz inserted a personal defense into the discussion when he said he regretted his "naivete" in recommending to Baron Duran, the pro-Austro-Hungarian foreign minister, that he confidentially discuss the state of affairs with Rakovsky. The premier called the criticisms of the army leadership by the heads of the peasant party as "cold poisoning."

Count Apponyi declared that the three chief questions needing discussion are the foreign policies, the military situation and the food supply. The harmony and unity needed for considering these three problems, Count Apponyi said, were endangered by the introduction of other questions such as Premier Thesz's attempt to bind Hungary economically to its allies for a long period of time.
